

## RSA12 Channel and Lens

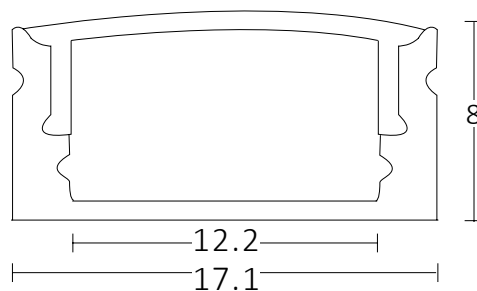

RSA12 is a recessed or surface-mounted aluminium profile with similar dimensions to RSA2. The anodised silver finish makes this profile best suited to installations where the profile is visible.

RSA12 has end caps and is available in up to 2m lengths.

The acrylic lens is available in both frosted and opal finishes.

It does not create a dot free effect.

When used with the tilt mounting clips it can be installed on covings allowing the channel to be adjustable for the maximum spread of light.

*If you can dream it there's a Specialised LED Products solution that will give you the tools you need to create it.  
If we don't already have it, we will source it. If it doesn't already exist, we will create it.*
