

RSA6 Channel & Lens

RSA6

Surface-mounted profile

Aluminium channel and acrylic lens.

- Max continuous length of channel is 2m.
- Lens can be supplied up to 5m as a single length.
- End caps available to order. Please specify with or without wiring hole, or both.
- For ease of installation clear plastic mounting clips are available to order.

RSA-6-CH&L-F: Frosted Lens

RSA-6-CH&L-O: Opal Lens

A right angle profile designed to have the LED strip mounted at a 45° angle enabling the channel to be placed into a corner or against the wall to project light down onto the work surface.

It is ideal for concealed shelf lighting, either mounting underneath shelves to light the shelf below or on top as uplighting.

It can also be used over mirrors as vanity lighting.

The strong aluminium construction prevents warping on longer lengths and provides an efficient heat sink for LED ribbon strip.

*If you can dream it there's a Specialised LED Products solution that will give you the tools you need to create it.
If we don't already have it, we will source it. If it doesn't already exist, we will create it.*
